Depot-wise Efficiency of the DTC Buses

3310. SHRI SURESH PACHOURI: Will the Minister of SURFACE TRANSPORT be pleased to state:

(a) what was the operational efficiency of buses of different DTC bus depots during the last 3 years, depot-wise and year-wise, and during the current year so far;

(b) whether it is a fact that the operational efficiency of some of the depots has gone down during the above period;

(c) if so, the details thereof and the reasons therefor; and

(d) the steps taken/proposed to be taken to improve the performance of such depots?

THE MINISTER OF SURFACE TRANSPORT (SHRI K. P. UNNIKRISHNAN): (a) The details are given in the statement annexed. [*See* Appendix CLV, Annexure No. 114] Efficiency has been expressed in terms of operational ratio which shows the percentage of trips actually operated as against the scheduled trips.

(b) and (c) Yes, Sir. While most of the Depots have shown an improvement in the year 1989-90 over the previous two years, in the case of 9 depots namely, Wazir Pur Depot II, Okhla Depot-I and II, Hari Nagar Depot-II and III, Peera Garhi Depot,

Vasant Vihar Depot, Mayapuri Depot and Naraina Depot, the operational efficiency has shown a slight decline in 1989-90 as compared to the previous year. There has been no steady decline in respect of any depot over the last three years. In fact, even in those Depots where the operational efficiency has declined compared to their own performance in the previous year, their levels of operational efficiency is higher than certain other Depots.

As regards operational efficiency of Depots during the current year, it cannot be directly compared with the previous three years as it covers only 4 summer months (April to July) of the current year. Past trends reveal that overall performance of DTC is adversely affected generally during the summer months.

(d) Steps being taken by DTC to improve the performance of such Depots include replacement of over-aged buses, augmentation of services after carrying out the surveys, route rationalisation, deployment of Assistant Engineers to ensure better services, Supervision of out-shedding position by Depot Manager during morning and evening hours, effective monitoring to correct imbalance and ensuring provision of spares to remove shortage if any.

As a part of decentralised operations, Depot Officers have been empowered to carry out on-the-spot corrective measures.

(क) क्या सरकार को यह जानकारी है कि उत्तर प्रदेश के बाराबंकी जिले में निजी तथा सरकारी टेलीफोन प्राय: काम नहीं करते हैं तथा कई-कई दिनों तक बन्द रहते हैं ;

(ख) क्या इस गड़बड़ी का मुख्य कारण यह है कि बाराबंकी का टेलीफोन एक्सचेंज, जो लगभग आधी सदी से भी पूर्व लगाया गया था, टेलीफोनों की बढ़ती हुई संख्या के साथ तालमेल बैठाने में असमर्थ है ;

(ग) बाराबंकी के उक्त टेलीफोन एक्सचेंज की स्थापना के समय वहां टेलीफोनों की कुल संख्या कितनी थी तथा 15 अगस्त, 1990 को उनकी संख्या कितनी थी ; और

(घ) क्या सरकार वर्तमान टेलीफोन एक्सचेंज को कम्प्यूटरीकृत टेलीफोन एक्सचेंज में बदलने के लिए कार्यवाही
